

PIAGET

BRACELET SIZE GUIDE

To find the perfect bracelet size, we recommend you take your measurements using a tape measure or string.

1. Take a tape measure or string and wrap it around the wrist on which you'd like to wear your bracelet. For a comfortable fit, we suggest you measure the widest part of your wrist, which is usually above the joint bone.

2. Using a pen, mark the point where the ribbon or string meets.

3. Measure the resulting length in centimeters (recommended) or inches with a ruler. Piaget recommends adding one centimeter for a more comfortable fit.

4. Use the size chart below to choose the Piaget bracelet size closest to your measurement, referring to the size indicated in the first column.

Cm	Inches	Open model 	Closed model 
13-13.9	5.1-5.4	14	15
14-14.9	5.5-5.8	15	16
15-15.9	5.9-6.2	16	17
16-16.9	6.3-6.6	17	18
17-17.9	6.7-7.0	18	19
18-18.9	7.5-7.8	19	20
19-19.9	7.9-8.2	20	21
20-20.9	13-13.9	21
