

SIZE GUIDE

In order to choose the right size for your Chaumet ring, please print out this A4 sheet, selecting “actual size” in your printing options.
Once it has been printed out, check that the scale is correct by using the line below: its length must correspond to that of a credit card (86mm).

Place the credit card here

You can then find your size by placing one of your rings on the ring sizer.
If the inside of the ring lines up exactly with the outer contour of the printed circle, you have found the right size.

If your ring is between two sizes, we recommend that you choose the bigger size.
